Email: naturexu@rogindental.com

**SHENZHEN ROGIN MEDICAL CO., LTD**

[www.china-dental-supply.com](http://www.china-dental-supply.com)

Shenzhen Rogin Medical Co., Ltd is a professional supplier in dental consumptive materials, especially in endodontic files and its accessory instruments, dental posts and pins, dental matrices system, dental polishing and finishing instruments, and other relevant dental products. We are also dealing with our cooperated factory in other dental instruments such as the dental burs, orthodontic, dental handpieces, dental lab materials and equipment and so on.

We are always doing our best to provide the best quality products with competitive price to our customers, and we continue to improve our quality controlling to ensure the quality and market competitive ability year by year.

We hope to establish business relationship with dental distributor and dentist abroad and domestic in the basis of mutual interest and benefit.

PROFESSIONAL  
MANUFACTURER AND  
SUPPLIER FOR DENTAL  
INSTRUMENT

# ENDO DONTIC

ENDODONTIC FILES  
NITI ROTARY SYSTEM FOR ROOT CANAL TREATMENTS

## ENDODONTIC

01

### GOLDEN SUPER FILES

Same shape and size with normal super file, made of high quality niti alloy with heat activation treatment to make the color to golden.

Special processing technique provides the files with much higher quality cutting efficiency and fracture resistance than the classic SUPER FILE.

#### GOLDEN FILE

Special golden files

High cutting efficiency

Excellent flexibility

More sharp

#### GOLDEN SUPER FILES

Size	Ring color	19MM	21MM	25MM	31MM
SX		SFG19SX			
S1			SFG021S1	SFG025S1	SFG031S1
S2			SFG021S2	SFG025S2	SFG031S2
F1			SFG021F1	SFG025F1	SFG031F1
F2			SFG021F2	SFG025F2	SFG031F2
F3			SFG021F3	SFG025F3	SFG031F3
Assorted		SFG021SX-F3	SFG025SX-F3	SFG031SX-F3	

## SUPER FILES

Made of high quality niti alloy  
Excellent niti endodontic system includes shapping files  
and finishing files

SF

- **Sharpening files SX**  
provides increased coronal flare and is a substitute for Gate Drills
- **Shaping file S1**  
use for preparing the coronal portion of the canal.
- **Shaping file S2**  
use for preparing the middle portion of the canal
- **Finishing file F1**  
use for finishing the apical preparation with a tip diameter of 0.20mm and a taper of 7%
- **Finishing file F2**  
use for finishing the apical preparation with a tip diameter of 0.25mm and a taper of 8%
- **Finishing file F3**  
use for finishing the apical preparation with a tip diameter of 0.30mm and a taper of 9%

### SUPER FILES - Rotary

Size	Ring color	19MM	21MM	25MM	31MM

F2		SFH021F2	SFH025F2	SFH031F2	
F3		SFH021F3	SFH025F3	SFH031F3	
Assorted		SFH021SX-F3	SFH025SX-F3	SFH031SX-F3	

## SUPER FILES II

SUPER FILES II is the next generation to the SUPER FILE system, which covers more difficult clinical cases, brings improved safety and shortens the shaping time.

SF

Size	Ring color	21MM	25MM	
X1	X1	SFII21X1	SFII25X1	07°-48°
X2	X2	SFII21X2	SFII25X2	09°-50°
X3	X3	SFII21X3	SFII25X3	00°-76°

## SUPER FILES III

-- blue files with heat activation

SUPER FILES III is made in high quality niti alloy, after heat activation treatment becomes blue color

The blue files more soft and tough, can be pre-curved suitable for bending curved root canal

The shape and size is the same as the classic SUPER FILES.

SF

### SUPER FILES III

Size	Ring color	19MM	21MM	25MM	31MM
SX		SFIII19SX			
S1		SFIII021S1	SFIII025S1	SFIII031S1	
S2		SFIII021S2	SFIII025S2	SFIII031S2	
F1		SFIII021F1	SFIII025F1	SFIII031F1	
F2		SFIII021F2	SFIII025F2	SFIII031F2	
F3		SFIII021F3	SFIII025F3	SFIII031F3	
Assorted		SFIII021SX-F3	SFIII025SX-F3	SFIII031SX-F3	

## ONE FILES

Designed specifically for root canal reciprocating motion  
Only one instrument can be used for one root canal preparation  
Single-use convenience  
Three sizes for different size canals

Size	Ring color	21MM	25MM
R25	Red	OF21R25	OF25R25
R40	Black	OF21R40	OF25R40
R50	Yellow	OF21R50	OF25R50
Assorted		OF21R25-R50	OF25R25-R50

### ONE FILE

## RS FILES

An asymmetrical cross-section: more flexibility and less stress  
The asymmetrical cross-section provides less stress on the instrument.  
The smaller section allows more flexibility and offers a better ability to negotiate curves

Taper	Size	Ring color	21MM	25MM
0.06	SC1	White	RS21SC1	RS25SC1
0.04	SC2	Yellow	RS21SC2	RS25SC2
0.06	SU	Red	RS21SU	RS25SU
Assorted			021SC1-SU	025SC1-SU

### RS FILE

## Stainless Steel K FILE

For all preparation techniques with filing motion

- Made in high quality stainless steel
- Square cross-section for better fracture resistance
- ISO size are clearly marked on the handle
- The inactive tip conducts the instrument safely along the canal
- With pre-mounted silicone stoppers

Working Length	Rubber stoppers	006	008	010	015	020	025	030	035	040	045	050	055	060	070	080

### SSK

Assorted size: #15-40, #45-80 Packing: 6pcs/pack

## Stainless Steel H Files

Highly efficient enlargement of root canals in filing motion

- Excellent cutting ability
- Made in high quality stainless steel
- ISO size are clearly marked on the handle
- The inactive tip conducts the instrument safely along the canal
- With pre-mounted silicone stoppers

Working Length	Rubber stoppers	006	008	010	015	020	025	030	035	040	045	050	055	060	070	080

### SSH

Assorted size: #15-40, #45-80 Packing: 6pcs/pack

# DENTAL POSTS

## SCREW POSTS FOR DENTAL RESTORATION

## DENTAL POSTS

02

### DENTAL SCREW POST

There are three different alloy types but in the same shape:

#### Stainless Steel Screw Post

- Made of high quality medical stainless steel

#### Gold Plated Screw Post

- Stainless Steel alloy plated with a thick layer of 24 K gold

#### Titanium Screw Post

- Made of 99.8% pure titanium, which is tissue compatible

### SCREW POST

### Accessories for the screw post:

Hollow Key and Cross Key for Screw Posts

6 sizes Reamers matching to the diameters of posts

#### Reamer

Size	Diameter
1	Φ1.05mm
2	Φ1.20mm
3	Φ1.35mm
4	Φ1.50mm
5	Φ1.65mm

Assorted: 120pcs/kit, 240pcs/kit  
Refill 12pcs/pack

## Nickel Titanium Reamers

For safe root canal preparation with a reaming motion

- Super flexible files, follow any canal curvature
- Resistant to fracture and highly flexible (memory effect)
- NITI mark and ISO size are clearly marked on the handle
- With pre-mounted silicone stoppers

Working Length	Rubber stoppers	006	008	010	015	020	025	030	035	040	045	050	055	060	070	080

NTR

## PASTE CARRIERS

- Close spring directly attached to shank absorbs pulse-movement, and serves to breakage-resistance.
- Diametric size of paste carriers are identified by color-coding of the shank conforming to the I.S.O. specifications

ISO CODE	025	030	035	040
Ring Color	Red	Blue	Green	Black
Working Length				
L=21	21025	21030	21035	21040
L=25	25025	25030	25035	25040

Assorted size: #25-40  
Packing: 4pcs/pack

PC

## PASTE CARRIERS (L TYPE)

- For filling root canals with paste, cement or sealer
- The cone shaped spiral prevents air bubble inclusions to make good sealing

ISO CODE	025	030	035	040
Ring Color	Red	Blue	Green	Black
Working Length				
L=21	21025	21030	21035	21040
L=25	25025	25030	25035	25040

Assorted size: #25-40  
Packing: 4pcs/pack

PCL

## GATE DRILLS, PESSO REAMERS

- For enlargement of the coronal third
- Made in high quality stainless steel
- Recommended speed 800 - 1,200 rpm
- Non-cutting tip
- With predetermined breaking point at the shank
- With ring marking to identify the size

### Gate Drills

## BARBED BROACHES (NERVE BROACHES)

For easy and safe pulp tissue removal

- The flexible barbs are evenly distributed on the cone shaped core
- The barbes are resilient to avoid breaking in the canal when used it properly.

Three are four types to suitable for different usage

### BROACHES

#### Short Barbed Broaches with Plastic handle

Size	#0	#1	#2	#3	#4	#5	#6

Package: 10pcs/pack

## SMOOTH BROACHES

For absorbing moisture in the root canal and for carrying disinfectant and can be used as a pathfinder or a probe in the root canal

- Square cross-section with sharp edge at its tip
- The portion can easily wind a wad of absorbent cotton, and a wad of cotton can easily be left in the root canal as the surface is finished like a mirror.
- Made in high quality stainless steel

Size	#0	#00	#000
L52	SBL00	SBL00	SBL000

Package: 10pcs/pack

### SQUARE

## GUTTA PERCHA POINTS

For root canal fillings after the preparation

- Stiff but flexible to provide ideal workability
- Hand-rolled from highest quality Gutta Percha to extremely close tolerance

### PAPER

## DENTAL OURO POST

There are three different alloy types but in the same shape:

### Stainless Steel OURO Post

- Made of high quality medical stainless steel

### Gold Plated OURO Post

- Stainless Steel alloy plated with a thick layer of 24 K gold

### Titanium OURO Post

- Made of 99.8% pure titanium, which is tissue compatible

### OURO POST

Stainless Steel

Gold Plated

Titanium

Size	Length	Diameter
0S	4.20mm	Φ0.90mm
0M	6.00mm	
0L	7.80mm	
1S	4.7mm	Φ1.10mm
1M	6.50mm	
1L	8.30mm	
2S	5.60mm	Φ1.30mm
2M	7.40mm	
2L	9.20mm	
3S	6.50mm	Φ1.50mm
3M	8.30mm	
3L	10.10mm	

Assorted: 120pcs/kit

Refill: 12pcs/pack

### Accessories for the OURO post:

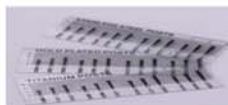

Hollow Key and Cross Key for OURO POST

4 sizes Reamers matching to the diameters of posts

20 stoppers

Scale

## Fibre Glass POST

The glass fibre post is supplied in a kit with 3 reamers and also available in refills of 6 pcs each size

### FIBRE

Size	Diameter
#1	Φ1.00mm
#2	Φ1.20mm
#3	Φ1.35mm
#4	Φ1.50mm

## Parapulpal Retention Pins

The parapulpal pins are used for the fixation of composite fillings and as a rotational stop for titanium root posts.

Made of high quality stainless steel, so will not oxidise and to prevent discoloration and critical physical reactions within patient

### DETIN

Size 017\*/0.5mm 021\*/0.6mm 027\*/0.8mm

Drills for pins

Size 017\*/0.5mm 021\*/0.6mm 027\*/0.8mm

# DENTAL MATRICES

DEVICES AND INSTRUMENTS FOR RESTORATIONS

## DENTAL MATRICES

03

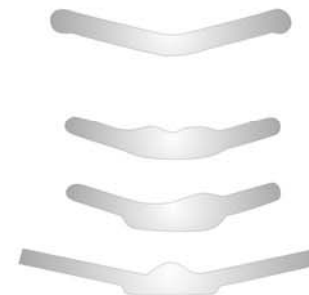

### Matrix bands and retainers

Made of Stainless Steel  
Thickness Thin 0.05 mm, x-thin 0.035 mm

Package: 12pcs per pack **Bands**

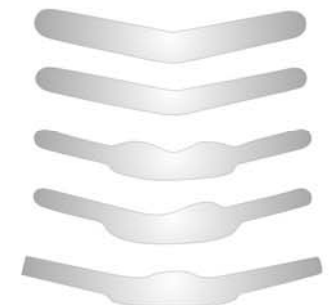

For Premolars (scale 1:2)

Matrix bands retainers

For Molars (scale 1:2)

### Rectangular Matrix Bands

**Rectangular Matrix Bands**  
5mm, 6mm, 7mm or 8mm wide wide, 100mm in length,  
thickness 0.05mm or 0.035mm, 12pcs per pack.

### Matrix Strips

**Striproll**  
Width available in 5mm,  
6mm, 7mm or 8mm

Thickness available in 0.05mm  
and 0.035mm

3m or 5m in length

## Sectional Contoured Metal Matrices

Anatomically pre-shaped  
Provide tight anatomical contact  
Stainless steel

### MATRICES

Feature	Code	Size	Assorted Kit(100pcs/kit)
	MA20011	Large with Ledge	10pcs
	MA20012	Medium with Ledge	10pcs
	MA20013	Small with Ledge	10pcs
	MA20014	Large	20pcs
	MA20015	Medium	30pcs
	MA20016	Small	20pcs

The kit includes 100 pcs matrices, 1 delta ring and 1 standard ring

forceps and Add-on Fix Wedges

Delta Ring

Standard Ring

## FIXING WEDGES

### WOODEN WEDGES

- Anatomically shaped interdental
- Maplewood wedges for a perfect point of contact
- Square extremity for a tight grip
- Pointed edge for safe, atraumatic insertion
- Type Colour coded

### WEDGES

Color	Code	Size	Assorted Kit(400pcs/kit)
Orange	FW170121	Superthin, short	100pcs
White	FW170122	Thin, short	100pcs
Yellow	FW170123	Thin, long	50pcs
Blue	FW170124	Medium, short	50pcs
Pink	FW170125	Medium, long	50pcs
Violet	FW170126	Thick, long	50pcs

### PLASTIC WEDGES

- Anatomically shaped
- Soft plastic

### WEDGES

Color	Code	Size
Blue	FW170131	Superthin, short
Green	FW170132	Thin, short
Yellow	FW170133	Medium, long
Violet	FW170134	Thick, long

## POLISHING AND FINISHING

COMPOSITE POLISHING  
AND FINISHING FOR CLINIC

### POLISHING AND FINISHING

04

#### Composite Polishing Disc with rivet

There are 4 colour and available in  $\phi 10\text{mm}$ , 12mm, 14mm and 16mm

Coarse Blue Disc for  
Gross Reduction

Medium Green Disc  
for Contouring

Fine Yellow Disc for  
Finishing

Superfine White Disc for  
Polishing

Mandrels for  
Polishing Disc

DISC

## Composite polishing disc with stem

There are 4 colour and available in  $\phi 10\text{mm}$ ,  $12\text{mm}$ ,  $14\text{mm}$  and  $16\text{mm}$

Coarse Blue Disc for Gross Reduction

Medium Green Disc for Contouring

Fine Yellow Disc for Finishing

Superfine White Disc for Polishing

DISC

Mandrels for Polishing Disc

## Composite Polishing and Finishing Kit

### Composite finishing Kit

- Fast speed grinding, long service life, fast heat dissipation.
- The composite finishing and polishing kit assorted with 6pcs FG White Stones
- This white stones are made of aluminum oxide grains, used for adjusting anatomical shape and remove excess composite to finish shaping.
- Recommend R.P.M 10000 -12000/Min
- Excellent for finishing of composites

KIT

### Composite Finishing and Polishing Kit

- The composite Finishing and Polishing Kit assorted with 4pcs FG White Stones and 2 FG Silicone polishers
- The silicone polishers is mixing with normal abrasive, are special for smoothing and initial polishing porcelain/resin teeth. are special for smoothing and initial polishing porcelain/resin teeth.
