

# INTELLIGENT RACK ANTENNA

## Model:ASG-Q2

The antenna adopts 3D identify technology, which can ensure test tube identified at any directions. Its shielded bottom guarantee its stable performance on table made of metal material. It has no integrated reader inside and should match with Andea four-port reader to work together.

### Application:

Hospital, Clinical, Laboratory, etc.

### Technical Specification

Model Name	ASG-Q2
Operating Frequency	13.56Mhz
Communication Interface	SMA
Maximum Power	1.5W
3D Omni-directional Sense	Support
Housing Material	PC+ABS, Aluminum
Housing Color	White
Dimension (L*W*H)	320*200*140mm
Weight	1200g
